## The benefits explained

### Smooth Bonus Fund

The Smooth Bonus Fund offers stable long-term returns, even if there are sudden changes in the investment market. You benefit from steady investment growth that will help you to meet your long-term goals.

### Five risk-profiled investment funds

People like choice. The FutureChoice Endowment Fund and the Sinking Fund offer a selection of five risk-profiled funds (including Smooth Bonus) ranging from conservative to aggressive to suit your individual savings needs. Your financial adviser will conduct a risk profile and recommend a suitable fund choice based on your age, risk appetite and savings term.

### Fund switching

This feature allows you to change funds when your circumstances or risk appetite changes. You can make unlimited switches between funds.

### Premium bridging

You may skip premiums for a limited time if you become unemployed, go on maternity leave, study full-time or suffer a major illness.

### Automatic Inflation Management

This benefit can help protect your savings against an increase in the price of goods and services (inflation). Each year your premium will automatically increase. You can choose a yearly fixed premium increase of between 5% and 10%.

### Premium Waiver on Death

You can choose this benefit on the life of the premium payer. Metropolitan will pay your premiums on your behalf until the end of the savings term if the premium payer passes away.

### Premium Waiver on Disability

If you choose this benefit, Metropolitan will pay your premiums on your behalf if you become disabled and are unable to work as a result of illness, accident or disease:

- until the age of 65, or
- until the end of the savings term (whichever event happens first).
